LETTER TO THE EDITOR

Vote for Harris-Walz

I'm a movie buff. As the Mayor of Superior (population 2400), I used movies as an analogy in our annual "State of the Town" address to outline Superior's accomplishments and challenges over the past year. It was a great hit as everyone can relate to the movies.

A movie about Superior includes scenes about the wildfire that ripped through in 2021 and how our town – in partnership with the State and the Federal government –

came back from the ashes. It includes scenes about the history of copper mining in Pinal County and what the industry could continue to mean for our local economy and America's global mineral trade. It includes the story of how in the wake of COVID, we used Federal relief funds to support our recreational trails and outdoor attractions which in turn not only prevented local businesses from closing but enabled new businesses to open.

The most exciting and

important movie however is being written before our eyes – electing Kamala Harris and Tim Walz to the White House. When that happens, towns like Superior will have even more to celebrate.

This movie needs to be our reality because the Biden-Harris Administration's Investing in America agenda committed nearly \$5.8 billion to strengthen our country's water and wastewater systems which enabled us to work directly with USDA and other federal agencies to rebuild our area's aquifers, maintain a strong water management plan and increase reliable access to water. Continuing this work will bring reliable water access to our homes and businesses and make us more prepared for wildfires.

This movie needs to be a reality because the Biden-Harris Administration is committed to our country's critical mineral supply chain which in turn expands American manufacturing, supports our national security and creates sustainable jobs. As recently as last month, Vice President Harris reiterated this commitment by calling for more public-private strategies to increase domestic mineral production. That's important to Pinal County because Superior's Resolution Copper mine is one of the country's largest copper ore deposits and has the potential to provide over 25% of our country's copper demand, as well as other critical minerals and materials. This is what is needed to make Superior a leader in the Green Energy

transition.

This movie needs to be a reality because Vice President Harris is committed to creating a path to well-paying jobs and careers which don't require advanced degrees. That's important to Superior's high school students who are enrolled in our advanced welding program. Thanks to federal support through the Biden-

Harris Administration, The Town of Superior, purchased state-of-the-art welding equipment. We now have three classes of students well-trained and ready for a modern, tech-driven workforce and we are on our way to developing the Superior Multi-Generational Center, a high-tech facility dedicated to skills training, entrepreneurial

development and telemedicine.

So as the Mayor of Superior, I ask you to put down the popcorn, help bring our ideas to life, and vote for Kamala Harris and Tim Walz.

Sincerely,
/s/ **Mila Besich**
Mayor, Town of Superior

Avantus hosts Ore Town Solar Project Open House in San Manuel

By T.C. Brown
Copper Area News

Staff members from Avantus, BHP and Pinal County Supervisor Jeffrey McClure were on hand at the Open House to answer questions, address concerns, and provide input regarding the proposed solar farm project on approximately 1,200 acres of previously disturbed BHP land. Several topics were presented and discussed with community members in attendance.

Solar as a Neighbor

- A utility-scale solar facility has a low-height profile, generates no emissions or odors, produces minimal noise, and uses only small amounts of water.
- Long, continuous rows of solar panels will be installed behind an existing security fence, with the panels rotating throughout the day.
- Their height typically ranges between 6 to 10 feet above the ground, depending on the angle of rotation.
- The battery systems are housed in modular metal structures that resemble standard shipping containers.
- Once constructed, little to no daily traffic would be produced.

Visual Photos Simulations were on display to show what the Ore Town Solar Project is expected to look like. More information can be found at <https://www.oretownsolar.com/visual-simulations>.

Here are some of the questions answered:
Why here?

“This location offers abundant sunshine and proximity to the existing San Manuel Substation, which will connect to the project to the regional electric grid. It is also providing new life and generating economic value from the land previously used by the San Manuel Copper Mine.”

Where will the power go?

“The Ore Town solar project would connect to Arizona’s electric grid, improving grid resiliency throughout the region. While the project has not contracted with an energy buyer or utility yet, it is estimated to provide enough clean energy to provide power for approximately 35,000 Arizona homes.”

Community Benefit?

“Ore Town Solar would create jobs and offer a massive boost to local tax revenue without requiring the community to incur costly new services. This infusion of tax resources, estimated

to generate tens of millions over the project’s operating life, could provide essential funding for services like education, fire districts and emergency services. Additionally, the project is

expected to create over 200 peak construction jobs, with local hires prioritized.”

Visual Impact?

“We believe viewsheds will be minimally impacted given the solar equipment has a low-profile, around 6 to 10 feet tall, or about the height of a privacy fence. The battery systems resemble the size and shape of standard shipping containers.”

BHP's Role?

“BHP owns the land the project would be sited on. With the mine now closed, the company is hoping to repurpose the land in a clean and economical way.”

Increase in energy bills?

“No. Local electricity rates are not expected to be directly impacted by this project.”

Project Cost to Community?

“The project is expected to bring significant economic benefits to the region. Throughout construction, the project will create new job opportunities, and provide a boost to local restaurants and business. Over the project's operating life, it's expected to generate significant local and state tax revenues to fund essential public services like education, fire districts and emergency

services.”

Fire Risk and Safety Concerns?

“Avantus will coordinate closely with the San Manuel Fire District throughout the design, construction, and testing phases to ensure the project adheres to safety standards.

“Avantus and project partners will prepare and maintain a comprehensive emergency response plan and will train all first responders on emergency procedures for a solar power plant and energy storage system.

“The project will be monitored for any warning signs of potential issues. In the unlikely event of a fire, batteries are designed to prevent a spread beyond the project site. Projects include a minimum 100-foot clearance between battery containers and other buildings, public roads, and combustible material such as vegetation. This buffer also helps protect against high winds or wildfires.”

Project Life?

“After the project life has been completed, the equipment would be removed and the land available for other uses. The project will have contractual agreements with the landowner and county that address the decommissioning of the plant and restoration of

the land.”

More information and answers to FAQs can be found at <https://www.oretownsolar.com/faqs>.

The project is currently moving through the permitting process and is currently scheduled for construction in 2026-2027.

The community is encouraged to share ideas on community development and partnership opportunities, by contacting Avantus directly at 520-527-2168, emailing them at oretownsolar@swca.com or through the form online at <https://www.oretownsolar.com/contact-us>.

The first step in the approval process for this proposed project is a public hearing by the Pinal County Board of Supervisors. This hearing is scheduled for Oct. 30, 2024, at 9:30 a.m. The hearing will be held at the Pinal County Administrative Complex in the Board of Supervisors Hearing Room. This is located at 135 N. Rivals Hayden, Ray face off on the grid iron; Hayden and Superior head into the playoffs

By Nathaniel A. Lopez
Copper Area News

After a couple years off, the Ray-Hayden rivalry football game was once again on the schedule.

It was a tough game for the hosts, the Bearcats.

After the traditional ceremonial police escort to the football field, the Lobos came out ready to play. Showing their dominance, the Lobos claimed a 71-0 victory.

"It didn't go our way, but it was nice to have the Ray/Hayden football game back," said Ray head coach Zach Moore. "That game means a lot to these communities."

Moore said, "Coach Estrada has done a great job building a successful program. Best of luck to them as they begin playoffs."

"Unfortunately," he added, "we came up short of our playoff berth goal. I couldn't have asked for more from the kids who stuck it out and battled through a ton of adversity this year. We had extremely high hopes during preseason and things just didn't roll our way. This year's senior group meant a lot to me I wish I could've done better for them. I know they will all be successful in life in whatever path they choose. The work for next year begins today. I learned a lot this year and have full faith we can make a playoff run next season. Thank you to all the athletes for your effort and commitment. Thank you to the parents for your support. A huge thank you to the coaching staff having assistant coaches who you can trust and count on makes my job much easier and I couldn't ask for better coaches. Thank you to the community of Kearny for your support of the Ray High Bearcats. Go Bearcats!"

The 'Cats closed out their 2024 season with a 4-5 record, and a #3 rank in the 1A South Region. Ray finished #13 in the state rankings, just two short of the playoffs.

Hayden closes out their regular season with a 9-0 record, and a #1 rank for 1A East Region, #1 rank for all of the 1A teams and #43 in the nation according to Maxpreps. As the #1 seed, the Lobos will automatically advance to the quarterfinals of the 1A State Football Championship playoffs, which will take place on Nov. 1, at Hayden with a 7 p.m. start time. The boys will take on the winner of the Williams V. Desert Christian round 1 game.

Ticket information will be available in the Oct. 30 issue of the newspaper.

Superior Panthers

The Superior football team claimed the win last Friday in their away game against Valley Union. The Panthers put in the work and were able to keep the Blue Devils out of the end-zone majority of the game. The final score of the game was 46-16.

The Panthers finished their regular season with a 5-4 record, but their season isn't over. Seeded #11, the Panthers will play in the first round of the 1A State Football Playoffs. The boys will travel to take on #6 Seed El Capitan on Friday, Oct. 25, with a 7 p.m. kickoff time. Should they win, they will face off against Mogollon in the quarterfinals.

Good luck Panthers, on your journey to state!

San Manuel Miners

Last Friday, Oct. 18, the San Manuel High School football team played its homecoming football game against Baboquivari. It was a good night for the red and blue, as the Miners claimed a homecoming victory.

The final score of the game was 34-12. This game closed out the season for the Miners. The boys closed out their season with a 3-6 record and ranked #4 in the 1A South Region. They were ranked #16 for 1A state rankings.

"We didn't have the season we wanted but our last game our team came to play. BaBo has a big team and it was rough at first. We are looking forward to next season," commented head coach Ernie Ivy.

We'll catch you on the field next year Miners!

The rankings for the state playoffs are for the whole team. But what about the individual players? How do they stack up against other teams and their own teammates?

AZPreps 365 evaluated all 1A players and found some interesting statistics for local players. These players are listed with their teams.
