By Edie Crall

Special to Copper Area News

For the fifth year, SaddleBrooke, SaddleBrooke Ranch and Oracle volunteers are working together to provide much needed food over winter break for students at Mountain Vista School in Oracle. Fueling the Future began and is continuing as a grassroots effort to support students at Mountain Vista.

foods, cash or checks at the locations listed below. If making a contribution by check, please make it payable to: Oracle Community Center (a 501(c)3 organization), your check is your receipt for tax donations. Cash and checks are used to purchase fresh fruits and vegetables.

Local election results announced

Nov. 5 has come and gone, and the fury over voting for the next president of the United States was not the only issue on the ballot. Several propositions were on the ballot including home rule elections in Mammoth and a school override election in Ray. Superior had two contested school board seats up for election.

Voters across Pinal County voted to continue the half cent road maintenance tax. The tax has been in existence for 20 years and helps Pinal County and local municipalities fund basic road maintenance work. Proposition 486 was also known as the Pot Hole tax.

Voters in Mammoth had two major ballot items including voting for Mayor and the Home Rule proposition. Voters elected Ernest Bustamante for the position of Mayor. He won the seat with 231 votes. He ran against incumbent Mayor Patsy Armenta who received 179 votes. The Home Rule Option was approved 244 to 129.

Ray Unified School district voters approved an override continuation: 741 voters approved the continuation, 504 voters voted against the measure. This

was not a new tax but a continuation of the current override which allows the district to tax a bit more to allow for other general operations of the school. Without the approved continuation, the district would have needed to make major cuts to their budget.

The Superior Unified School district had two board vacancies up for election in the 2024 election. For the first time in several years, the open seats had multiple candidates seeking election to the board. Ericka Vasquez who was appointed to the board several years ago opted to run for the four-year term, vacated by Nathan Duarte. Nick Cruz a local businessman ran against Vasquez for the four-year term. He won the seat with 766 votes to Vasquez' 454 votes. Two new candidates sought election to the two-year term. Randi Villegas challenged Martin Navarrette for the term. Navarrette won the seat with 746 votes versus Villegas 461 votes. Superior Unified School District will have an additional seat open for appointment due to the recent resignation of Board President Hector Apparicio.

These results were gathered from the Pinal County Elections office.

Arizona Forestry visits San Manuel to discuss wildfires and Firewise

By T.C. Brown
Copper Area News

Corey Guerin, Lead Prevention Officer, with the Arizona Department of Forestry & Fire Management met with members of the community at the San Manuel Community Center on Wednesday, Oct. 23, 2024. Frank Molina from BHP and Ernie Ivy from San Manuel Fire were also in attendance to answer questions and discuss fire concerns around the community.

Corey gave an insightful presentation about wildfire dangers, risk assessment, and the benefits of having a community Firewise program in place before wildfires happen. He also discussed community specific concerns. He indicated that he would be very willing to assist in setting up a Firewise community in San Manuel if there was enough interest. He expressed his willingness to return to answer more questions and present additional information to more of the community. He also discussed the importance of being signed up for the Pinal County Emergency Notification System (PENS).

Molina discussed ongoing concerns for fire ignition risk in and around BHP property and throughout the community. It was pointed out that several areas have been recently cleared in the community with more to follow. It was also pointed out that there are large areas owned by BHP that are being used to dump trash and other flammable material with negative effects to the long-term concerns of fire abatement.

Ivy discussed established and planned mutual aid agreements with local, state and federal agencies that would assist San Manuel in the case of a fire. He also discussed planned future training for solar-related fires in reference to the planned solar farm and the multiple homes in the community that have solar panels already installed. He also discussed future enlarging of the San Manuel Fire District.

Several members of the San Manuel Revitalization Coalition (SMRC) were on hand. The group expressed an interest in pursuing Firewise USA site designation for the San Manuel community. Firewise community members may be able to find reduced insurance costs, as well as other benefits. There would have to be enough on-going community participation for this idea to come to fruition, but it is certainly a possibility. Interested San Manuel community members can contact SMRC directly to express interest and sign up to be notified of updates. All in attendance appreciated the time and answers presented.

Firewise Recognition Steps:

- Obtain a Community Wildlife Risk Assessment.
 - Form a Community Board/Committee.
 - Create an Action Plan.
 - Conduct a "Firewise Day" event.
 - Invest the Equivalent of the National Hourly Volunteer Rate per Dwelling Unit, Annually.
 - Submit online Application/Renewal.
- For more information on the San Manuel Revitalization

“WHAT IS PENS?”

PENS stands for Pinal Emergency Notification System. It is Pinal County's tool to notify residents of any impending or current emergency where action by residents may be necessary. PENS utilizes the Genasys Emergency Management software.

A PENS alert notifies residents when an emergency is immediately impacting their community, and they may need to take action. These notifications are usually reserved for more severe situations where life or property may be threatened. They can also be used in situations such as a weather alert or wildfire, where time is of the essence, and immediate notification is imperative.

Alerts are issued through phone, text, and/or email, depending on how you registered to receive your alerts. PENS can also be indirectly posted to County or departmental social media channels and can be sent according to any geographic boundaries necessary or be used as a countywide message blast.”

For more PENS information and to register go to <https://bit.ly/4ebQRxC>.

Some of the topics discussed are summarized below.

“Reduce Home Ignition Risks

When considering your home's "ignition risk," it can be helpful to think about the area around your home, or "home ignition zone." This includes your home at the center and everything within 100 feet (or 30 meters).

A home's ignition risk is determined by its immediate surroundings and the materials used for its construction. The specific location isn't necessarily as influential as the landscape around it.

HOME IGNITION ZONES (HIZ) CAN BE DIVIDED INTO 4 PARTS: “HOME ZONE”

The home itself and everything within 5 feet of the foundation. Includes: Fences, decks, porches, and other attachments. Recommended construction materials: Non-flammable or low flammable for new homes and retrofits — especially with roofs, siding, and windows. Preventative measures: Remove flammables (debris, mulch, plantings) from roofs, eave lines, gutters, deck/porch surfaces, and within 5 feet of the home and any attachments.

Boyce Thompson Arboretum receives transformative \$750,000 gift from Resolution Copper to enhance educational programs

Boyce Thompson Arboretum (BTA) is proud to announce a landmark three-year funding agreement totaling \$750,000 from Resolution Copper. This significant investment will elevate and expand the Arboretum's educational initiatives, with a particular focus on the Copper Corridor communities.

The funding will enable BTA to undertake key projects, including the comprehensive renovation of the Children's Garden, the development of an extensive outreach program for local schools within the Copper Corridor, and the creation of innovative, immersive learning experiences for visitors of all ages. In the first year, efforts will center on designing and implementing the initial phase of the Children's Garden renovation, hiring an Education Director, and conducting teacher workshops to develop STEM-focused curricula tailored to the needs of Copper Corridor schools. "We are deeply grateful to Resolution

Copper for their unwavering support and commitment to education and community engagement," said Kim Gray, Executive Director of Boyce Thompson Arboretum. "This partnership will significantly enhance our ability to provide vital educational opportunities that foster a deeper understanding and appreciation of desert plants, wildlife, and ecosystems."

Key initiatives supported by this agreement include:

- **Children's Garden Renovation:** Creating an interactive, child-friendly nature exploratorium, with phase one focusing on the installation of nature play stations.
- **Education Director:** Supporting the crucial work of the Education Department in developing engaging programs and fostering partnerships with local schools and community organizations.
- **Teacher Workshops:** Developing STEM-focused curricula and providing ongoing support and training for teachers in the Copper Corridor.

- **Outreach Vehicle:** Acquiring a co-branded vehicle to facilitate access to schools and deliver educational programs on-site.

In the subsequent years, the funding will sustain these initiatives, with further phases of the Children's Garden renovation, the introduction of an Outreach Coordinator to assist with educational outreach, and the development of the Ayer Lake Learning Center and Discovery Trail.

"I am appreciative of the support provided by Resolution Copper. This funding will allow us to expand our educational initiatives at the Arboretum and create learning opportunities within the Copper Corridor," shared Dr. Lyana Guevara, Director of Education at Boyce Thompson Arboretum. "These programs will provide educational outreach to all schools within the Copper Corridor and standards-aligned, professional development opportunities for educators

to improve student performance and inspire them to pursue careers in STEM-related fields".

"Resolution Copper is honored to partner with Boyce Thompson Arboretum in support of their vital mission of education, research, and conservation," said Bryan Seppala, Principal Advisor of Economic Development and Social Investment of Resolution Copper. "We believe in the transformative power of education and are excited to see the profound impact this funding will have on the Copper Corridor communities."

In recognition of this generous support, Resolution Copper will be acknowledged as the Lead Education Sponsor on BTA's website, educational materials, and donor wall. They will also receive presenting sponsor recognition for the Children's Garden, Discovery Trail, and Ayer Lake Learning Center, as well as signature sponsor recognition for the annual Green Gala.

measures: Keep lawns mowed and well-maintained; well-spaced plantings of low flammability species; swap mulch for rocks, gravel, or stone; remove large fuel packages like firewood piles from this area.

30-100 FEET

Preventative measures: Keep irrigated with low-growing and low-flammable plants; create separation between grasses, shrubs, and trees to avoid fire spreading into taller vegetation in a "fuel ladder" effect; space trees to prevent crowns from touching.

100+ FEET

Research shows that keeping high intensity fire 100 feet from a home will prevent the fire from igniting the home directly. Preventative measures: Place low-growing plants and well-spaced trees; keep volume of vegetation (fuel) low.

CHECKLIST

Research shows taking simple, scientifically proven steps can help reduce the risk of your home and property becoming fuel for a wildfire. Band together with homeowners in your community to follow this list of actions throughout the year.

Clear — ignitable material such as needles and leaves from roof, gutters, eaves, porches and decks.

Repair — any loose or missing roof shingles/tiles and caulk any gaps or openings on roof edges.

Cover — exterior attic vents and install metal wire mesh (1/8 inch or smaller) to under-eave and soffit vents.

Relocate — items kept under decks or porches; swap out vegetation in these areas for rock or gravel.

Replace — mulch with hardscaping, including rock, gravel or stone.

Remove — ignitable features within 30 feet of all structures including firewood piles, portable propane tanks and dry and dead vegetation.

Protect — water dry grass and shrubs, trim brown vegetation and dispose of yard waste.

Prune — low hanging branches (6-10 feet for taller trees, 1/3 of tree height for smaller trees); remove any tall grasses, vines and shrubs from under trees.

Contact — neighbors and create a plan to address shared wildfire safety concerns together.

THREE BIGGEST WILDFIRE BEHAVIOR FACTORS:

1. Topography (lay of the land)
2. Weather (wind speed, relative humidity, and ambient temperature)
3. Fuel (vegetation and man-made structures)

EXTREME WILDFIRE BEHAVIOR, FUEL QUANTITY, AND WEATHER CONDITIONS OFTEN COINCIDE:

- Extended drought
- High winds
- Low humidity
- High temperatures
- Excessive fuel buildup (live and dead vegetation material)

FUEL IS THE ONLY ONE OF THESE FACTORS WITHIN OUR ABILITY TO CONTROL.

Fuel can be: Dead leaves and pine needles left on decks,

in gutters and strewn across lawns can ignite from embers.

Shrubs and low hanging tree limbs that can be reached by fire moving along the ground.

Homes with flammable features. Unprotected attic vents, for example, allow firebrands entry into attics and to the flammable materials within. A burning home is a potential threat to surrounding homes and structures."

ABOUT FIREWISE®

The national Firewise USA® recognition program provides a collaborative framework to help neighbors in a geographic area get organized, find direction, and take action to increase the ignition resistance of their homes and community and to reduce wildfire risks at the local level.

Any community that meets a set of voluntary criteria on an annual basis and retains an "In Good Standing Status" may identify itself as being a Firewise® Site.

ABOUT NFPA®

The National Fire Protection Association® (NFPA) is a global self-funded nonprofit organization, established in 1896, devoted to eliminating death, injury, property, and economic loss due to fire, electrical, and related hazards. Hayden heads to the finals

By Nathaniel A. Lopez
Copper Area News

Last Friday, the Hayden football team continued its quest for the 1A State Championship, during the Semifinals game at Coronado High School. The Lobos took on the St. David Tigers.

Hayden received the ball off the first kickoff. The Lobos played a tough defense trying hard to break through the Tigers' defense. The Tigers turned the ball over, but it quickly returned to the Lobos, when the boys recovered a fumble.

Kino Lorona scored the first touchdown, giving the Lobos 6 points. Hayden's defense played tough, and stopped Saint David from gaining yards. Scoring the second touchdown was Tyler Garner, making the game 12-0. Quarterback Paul Gaither tossed a pass to Jr. Fong for another touchdown, followed by a field goal by Mj Oropeza. Closing out the first quarter with a 19-0 score.

The second quarter started in the Tigers' hands, but the Lobos recovered another fumble and got the ball. Tyler Garner ran the ball hard, and it took four people to take him down. Garner scored a touchdown, making it 25-0. Jr Fong caught a pass in the end zone, followed by a field goal by Mj Oropeza, bringing the score to 32-0. Kino Lorona scored the last touchdown of the second quarter, making it 38-0 for the first half of the game.

The Lobos kicked off to start the second half of the game. The boys were able to stop St. David from gaining any yards, and turned the ball over. Jordan Rodriguez carried the ball for a touchdown, making it 45-0, with a field goal pushing it to 46-0. Gaining yards off a run, St. David inched closer to the end zone, eventually scoring with 24 seconds left of the third quarter, making it 46-6 for the end of quarter 3.

Hayden started off the fourth quarter with Kino Lorona running over 60 yards for a touchdown, making it 52-6, with a field goal making it 53-6. The Lobos held tight for the remainder of the quarter, not giving anymore points. The game ended with a final score of 53-6.

"How does it feel, going back to the 'ship?" Coach

Kino Lorona (#22) runs the ball.

Nathaniel Lopez | CANP

Estrada asked the team during their post-game huddle, "Extremely hard next week, we've gotta get focused. Heck of a game, you guys knocked the heck out of those guys. We gotta heal, we've gotta heal for next week, so you guys that are banged up, get ice heat, whatever it takes. We gotta heal for next week so we can be healthy to face

whoever we're going to face."

The Lobos will advance to the state championship game against Bagdad. The game will be on Saturday, Nov. 16, with a 6 p.m. kickoff time. Tickets are available through: <https://gofan.co/event/1981709>. The game will also be live streamed via the NFHS Network.
