Red Cross responders focus on the Copper Corridor

By Joe Gruberman
Pinal County Community Volunteer Leader
Arizona & New Mexico Region of the American Red Cross

It happens once every few weeks. The Red Cross receives an emergency call from Winkelman or Mammoth, or some other part of the Copper Corridor. A home has caught fire and has been destroyed. A family of five is standing outside among piles of debris, on what had been their front lawn. Luckily, the fire department dispatcher has called 1-800-REDCROSS to request emergency assistance.

A team of Red Cross responders is mobilized within a few minutes of the initial call. Help is on the way. But more often than not, it may be another hour or more before Red Cross volunteers arrive on site. This is

because the distance between Mammoth and the nearest available responder – who is dispatched directly from his or her home – can easily be almost one hundred miles. Considering the limited number of roads that lead in and out of the area, adverse weather conditions or heavy traffic anywhere along the way can further reduce the response time.

Such delays weigh heavily on the Red Cross, especially the volunteer responders, who are trained to provide immediate relief when disasters strike in cities and towns across Pinal County. It is a problem that arises every few years as local response volunteers age out of the system, move away, or migrate to other positions within the Red Cross. Similarly, at any point in time, volunteers may be temporarily out of commission due to illness, travel, or other commitments. This is a fixable problem, and the Red Cross is seeking the help of the community.

The best way for our communities to participate is to help us get the word out. Local organizations and clubs are invited to host Red Cross presentations as a public service. One or two hours is more than enough time for us to share the Red Cross response story with you, to field any questions or comments, and to assist interested members of the community in the process of signing up as a Red Cross volunteer.

When you take that first step toward response training with the Red Cross, you are taking an important step to becoming a valuable member of your community. You can help serve your community's needs, on a flexible schedule, often without leaving home. Understand that most disaster responses will require that you visit the affected family, but that family can easily be a friend or neighbor, or a fellow member of a community organization, a

OBITUARIES

Wanda M. Kelley

Wanda Myrtle (Holland) Kelley, 81, of Dudleyville, Arizona was called home on June 24, 2025. Wanda was born on Aug. 6, 1943, in Alvin Texas, to Cyrus and Dorothy Holland. She was raised in Ray and Dudleyville, AZ.

Wanda was married to Robert Kelley for 36 years until his passing and was previously married to Russell

Hillman and Bud Coy. During those times she had four beautiful children: Pam Hillman, Greg Hillman (Angie), Tammy Judd and Marty Kelley (Donna). Wanda lived in many states and countries including Wiesbaden, Germany, Wisconsin, Illinois and Nevada. She also had a generational line in the Copper Mines.

Wanda hated her middle name but would always use the M. which was kind of odd, because people would then ask her what it stood for, but we all knew. Wanda was a homemaker and special education aide.

Wanda loved family, kids, her grandkids, all her nieces and nephews. She will be deeply missed by all in return. There was no limit to her dedication, she would get on the floor and play with all of them. There were so many adventures with the grandchildren, one of her favorites was when Alyssa took her to get her first and last tattoo!

When Wanda wasn't playing with the kids, she was enjoying the kitchen. Cooking her family's favorite dishes. She was an amazing cook and didn't like anybody else's cooking.

There was one time there was too much mustard in her daughter's potato salad, and she never let it go. She loved to hotrod around in her Jeep and quad. Among her talents was sign language and taught everyone to sign I Love You. She was very generous and loved to give food and items to her neighbors and family.

Her favorite things were the color blue (blue topaz/ diamonds/turquoise jewelry, bottles and especially her blue Jeep), crosswords and adult coloring, blingy Jeans and boots, her TV crime shows, Popcorn, Jellybeans and Wild Cherry Pepsi.

Wanda is preceded in death by her husband Robert (Bob) Kelley; her parents, Cyrus and Dorothy Holland; and sister, Nancy Holland. She is survived by her four children; seven grandchildren, Alyssa, Kyla, Chase, Amanda, Megan, Clint and Jamie; her eight great-grandchildren, Xavian, Onyx, Jax, Reagan, Carter, Aubrey, Delaney and Jamie; her brother, Frank Holland; sister, Linda Cleveland; and many nieces and nephews.

A Celebration of Life for Wanda was held June 28 at Griffith Mortuary in Kearny.

OBITUARY

Ramona Terese Aguirre

Ramona Terese Aguirre (Celis), a beloved lactation consultant at Phoenix Children’s Hospital and longtime resident of Gilbert, Arizona, passed away peacefully at home on June 4, 2025, at the age of 46, following a courageous 2.5-year battle with cancer.

Born in Superior, Arizona on May 15, 1979, Ramona was the daughter of Norma K. Guzman and F. James Celis. She spent her early years in Omaha, Nebraska (1979–1983) and Kearny, Arizona (1983–1997), before settling in the Phoenix metropolitan area, where she built her life and career over the next 28 years.

Ramona attended Ray Unified Schools

and later enrolled in the theater program at Arizona State University. Although she initially pursued the performing arts, she ultimately discovered her true calling—supporting mothers on their breastfeeding journeys. Her passion for helping others blossomed into a meaningful career as a lactation consultant. Ramona earned her credentials as an IBCLC, RLC, and provided care through the Arizona Department of Health Services WIC Program, Banner Desert Medical Center, St. Joseph’s Hospital and Medical Center, and most recently, Phoenix Children’s Hospital.

Known for her clinical expertise and heartfelt compassion, Ramona provided personalized, nurturing care to families during some of their most vulnerable moments. She was deeply respected by her colleagues and touched the lives of countless mothers and babies with her warmth, wisdom, and gentle encouragement.

On March 23, 2007, Ramona married the love of her life, Eugene Antonio Aguirre, in Mesa, Arizona. Together they shared over 18 beautiful years of marriage

and built a loving home for their two children, Marley and Vivianne—whom Ramona adored above all else. Becoming a mother transformed her, and she embraced that role with grace, joy, and unwavering devotion.

Ramona will be remembered for her radiant energy, generous heart, and the joy she brought to every gathering. Her signature smile and laugh lit up any room and left those around her feeling truly seen and uplifted. She was a connector—maintaining close bonds with her many cousins, friends, and siblings, and acting as the central hub of her extended family and many friends.

She had a lifelong love for the arts and the outdoors. Ramona never missed an opportunity to watch a touring Broadway show, concert, or museum visit. An avid hiker, she explored countless trails around Arizona and especially cherished vacations to California and Hawaii, with La Jolla and the Pacific Coast holding a

special place in her heart.

Ramona’s absence leaves an immense void in the lives of those who loved her, but her memory will live on in the countless lives she touched.

She is survived by her devoted husband, Gene; children, Marley and Vivianne; siblings, Antonio, Estevan, and Diana; her father, F. James Celis; niece, Dalliss Celis Griffin; and nephew, Mason York Celis. She was preceded in death by her beloved mother, Norma Guzman Celis.

Ramona’s light, love, and legacy will be remembered always.

Services for Ramona will be on Saturday, July 26, 2025, at 10 a.m. at The Living Word Chapel in Kearny, AZ, and a Luncheon to follow at the Infant Jesus of Prague Catholic Church in Kearny, AZ.

In lieu of flowers, you can make a one-time donation to the Ramona Celis Aguirre-Memorial Fund at <https://7830.blackbaudhosting.com/7830/In-Memory-of-Ramona-Aguirre>

Paranormal brand wants to know your haunted locations

By **Nichole M. Aranda**
Copper Area News

Have you ever watched a paranormal show on TV and thought “Wow, they should record this place?” Well now may be your chance to make suggestions! Longhorn Paranormal is looking for places in the Copper Corridor to film a TV episode or two.

Jennifer Stoller and Stephen Johnson rebranded Chicagoland Paranormal Foundation to Longhorn Paranormal in 2014. By 2018 they had episodes streaming on YouTube, Roku, POV Horror, and Amazon Firestick. In 2021, Jennifer suffered from serious health

issues and the brand had to step back for her recovery. They brought the brand back in 2024 and are looking to build back up the brand to (and surpass) the status they were at pre-covid.

The team has investigated some widely suspected haunted areas, such as Galveston Naval Museum, USS Cavalla, USS Stewart, Fort San Jacinto, Old Lavaca County Jail, Phelps Dodge Hospital, Yorktown Memorial Hospital, New Orleans Voodoo Museum, Laura Plantation in Vacherie, LA, Pirate Jean Lafitte Mansion, Apache Death Caves, and the Jerome Grand Hotel.

Their most recent investigation just took place in

June at the Historic Bradshaw Ranch near Sedona, AZ. They met with their new team member, Dr. Juergen Hess, who has been featured on Discovery Channel and History Channel, as well as many podcasts and conventions. Donned with a massive nerve center, over a quarter-million dollars of equipment and over 20 years of experience, the team was nothing short of professional and remarkable.

Longhorn Paranormal offers Private Client assistance and free educational material if you are in need. To submit a location, you can email the company at jenn@longhornparanormal.com. For more information, visit www.longhornhaunts.com.

Twenty years is a long time to work for the same company. At the last Pinal County Board of Supervisors meeting, four employees were recognized for meeting and beating that milestone, including Veronica Martinez, who has worked at the Copper Corridor Justice Court as a Justice Court Clerk for 20 years.

“Congratulations to Veronica Martinez on her 20th year of service to the Copper Corridor Justice Court,” Judge Ellie Brown said. “Your dedication and service has remained steady all these years. You are part of the pillar that keeps this court with a solid foundation. May you have many more successful years with the court system. I am proud and fortunate to have you as one of my clerical staff. Thank you for your hard work, loyalty and expertise.”

The three other employees honored at the board meeting were two Sheriff's Office staff – Christopher Santos, a Deputy Sheriff, and Melissa Arnold, an Administrative Supervisor, who both celebrated 25 years with the county, and Julie Ascanio, a Jury Manager with the Family Services of Conciliation Court, who has been with the county for 20 years. Congratulations to all four. Thank you for your service to the residents of Pinal County.

Celebrating 20 and 25 years of service to the county, Christopher, Melissa, and Julie are pictured with the Board of Supervisors, as well as Sheriff Ross Teeple and Tracy McElroy, Director of the Family Services of Conciliation Court. Veronica was not able to be in attendance.

We want our valued customers to be informed about their water quality. If you would like to learn more about public participation or to attend any of our regularly scheduled meetings, please contact <u>Town Hall</u> at <u>520-363-5547</u> for additional opportunity and meeting dates and times.			

Drinking Water Sources	
The sources of drinking water (both tap and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals, and in some cases, radioactive material, and can pickup substances resulting from the presence of animals or from human activity.	
In order to ensure that tap water is safe to drink, EPA prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. Food and Drug Administration (FDA) regulations establish limits for contaminants in bottled water which must provide the same protection for public health.	
Our water source(s):	6 Ground Water Wells, Basin: Lower San Pedro, Sub Basin: Mammoth, Watershed: Upper Gila River
Drinking Water Contaminants	
Microbial Contaminants: Such as viruses and bacteria that may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife	Organic Chemical Contaminants: Such as synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production and also may come from gas stations, urban storm water runoff, and septic systems.
Inorganic Chemicals: Such as salts and metals that can be naturally-occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming	Radioactive Contaminants: That can be naturally occurring or be the result of oil and gas production and mining activities.
Pesticides and Herbicides: Such as agriculture, urban storm water, and residential uses that may come from a variety of sources	

Vulnerable Population	
Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. For more information about contaminants and potential health effects, or to receive a copy of the U.S. Environmental Protection Agency (EPA) and the U.S. Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by <i>Cryptosporidium</i> and microbiological contaminants visit the EPA <i>Safe Drinking Water website</i> at www.epa.gov/sdwa .

Source Water Assessment
Based on the information available in 2002/2003 on the hydrogeologic settings and the adjacent land uses that are in the specified proximity of the drinking water source(s) of this public water system, the Arizona Department of Environmental Quality (ADEQ) has given a high-risk designation for the degree to which this public water system drinking water source(s) are protected. A designation of high risk indicates there may be additional source water protection measures which can be implemented on the local level. This does not imply that the source water is contaminated nor does it mean that contamination is imminent. Rather, it simply states that land use activities or hydrogeologic conditions exist that make the source water susceptible to possible future contamination. Further source water assessment documentation can be obtained by contacting ADEQ.

Definitions
Treatment Technique (TT): A required process intended to reduce the level of a contaminant in drinking water
Level 1 Assessment: A study of the water system to identify potential problems and determine (if possible) why total coliform bacteria was present

Maximum Contaminant Level (MCL): The highest level of a contaminant that is allowed in drinking water
Maximum Contaminant Level Goal (MCLG): The level of a contaminant in drinking water below which there is no known or expected risk to health

Lead Informational Statement:
Lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Town of Kearny is responsible for providing high quality drinking water and removing lead pipes, but cannot control the variety of materials used in plumbing components in your home. You share the responsibility for protecting yourself and your family from the lead in your home plumbing. You can take responsibility by identifying and removing lead materials within your home plumbing and taking steps to reduce your family's risk. Before drinking tap water, flush your pipes for several minutes by running your tap, taking a shower, doing laundry or a load of dishes. You can also use a filter certified by an American National Standards Institute accredited facility to reduce lead in drinking water. To address lead in drinking water, public water systems were required to develop and maintain an inventory of service line materials by Oct 16, 2024. Developing an inventory and identifying the location of service lines (LSL) is the first step for beginning LSL replacement and protecting public health. Please contact us if you would like more information about the inventory or any lead sampling that has been done. If you are concerned about lead in your water and wish to have your water tested, contact Town of Kearny Town Hall (520)363-5547. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available at http://www.epa.gov/safewater/lead .

* **Arsenic** is a mineral known to cause cancer in humans at high concentration and is linked to other health effects, such as skin damage and circulatory problems. If arsenic is less than or equal to the MCL, your drinking water meets EPA's standards. EPA's standard balances the current understanding of arsenic's possible health effects against the costs of removing arsenic from drinking water, and continues to research the health effects of low levels of arsenic.

* **Nitrate** in drinking water at levels above 10 ppm is a health risk for infants of less than six months of age. High nitrate levels in drinking water can cause "blue baby syndrome." Nitrate levels may rise quickly for short periods of time because of rainfall or agricultural activity. If you are caring for an infant, and detected nitrate levels are above 5 ppm, you should ask advice from your health care provider.

Water Quality Table – Unregulated Contaminants

Your drinking water was sampled for the presence and concentration of 29 different per- and polyfluoroalkyl substances, some known by the acronyms PFAS, PFOA, PFNA, PFHxS, PFBS, and GenX, a group of contaminants in the final stages of becoming regulated by the EPA. PFAS are man-made chemicals that are resistant to heat, water, and oil. They have been used since the 1940s to manufacture various consumer products, including fire-fighting foam and stain resistant, water-resistant, and nontoxic items. Many PFAS do not break down easily and can build up in people, animals, and the environment over time. Scientific studies have shown that exposure to certain PFAS can be harmful to people and animals, depending on the level and duration of [exposure](#).

To learn more about this group of chemicals, we encourage you to read the ADEQ-provided "PFAS 101 Fact Sheet" and to visit the ADEQ website at <https://www.adeq.gov/pfas-resources>

Per- and Polyfluoroalkyl Substances	Highest Level Detected (ppb)	Range of All Samples (ppb)	Proposed MCL
PFOA	4.38	4.38	4.0 ppt
PFOS	2.39	1.99 – 2.39	4.0 ppt
PFNA	ND	ND	N/A*
PFHxS	1.99	1.93 - 1.99	N/A*
PFBA	6.65	6.59 - 6.65	N/A*
PFBS	88.5	63.2 – 88.5	N/A*
Calculated Hazard Index (HI)	>1		1 (no units)

* EPA is proposing a Hazard Index MCL to limit any mixture containing one or more of PFNA, PFHxS, PFBS, and/or GenX Chemicals. The Hazard Index determines the different toxicities of PFNA, GenX Chemicals, PFHxS, and PFBS. For these PFAS, water systems would use a hazard index calculation to determine if the combined levels of these PFAS in the drinking water at that system pose a potential risk and require action (Source: EPA Fact Sheet: Understanding the PFAS National Primary Drinking Water Proposal: Hazard Index).

In what has become an annual tradition, folks from the Tri-Community celebrated our Nation's birthday in Oracle. The Oracle Community Center again hosted this year's July 4th festivities beginning with a walking and bicycling parade, followed by activities at the center. Children attending received goodie bags with bubbles, balloons, glider airplanes and glow bracelets. Adults and children alike took part in a patriotic trivia contest and enjoyed an ice cream social. Later in the morning, the Oracle Fire Department hosed down the kids who had fun playing in the water and mud. See more photos on page 20.

RED CROSS VOLUNTEERS

church, or a club. You would be joining your own neighborhood's support network.

The immediate question is "what is the commitment"? Your time is valuable and your priorities are for you to decide. All we

ask is that you take a few hours of initial training and be available a few hours a month, at most, to respond to the victims of home fires. A single volunteer in each major town along the Copper Corridor is

our immediate goal. That would be enough to respond to most incidents throughout the year. Your local presence would allow your displaced friends and neighbors to obtain more immediate assistance when

they need it the most. Are you ready to be someone's hero?
